MUHAMMED HUSSAIN M

FULL STACK DEVELOPER

+91 9562346875   LinkedIn   GitHub   hussainmhn75@gmail.com

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Java (core)
- **Front-End:** React.js, Next.js, Bootstrap, CSS, Tailwind css
- **Back-end:** Node.js, Express.js, RESTful API development
- **Database:** MongoDB, PostgreSQL
- **Authentication:** JWT, bcrypt
- **Tools & Version Control:** Git, GitHub, GitLab, Postman, Vercel, and Figma

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern   Sep 2024 – Sep 2025
Upcode Software Labs

- Developed and maintained **responsive web applications** using **HTML, CSS, Tailwind CSS, JavaScript, and React**, delivering optimized and consistent user interfaces across multiple devices.
- Engineered and integrated **secure and scalable RESTful APIs** using **Node.js, Express, JWT,** and **Multer,** with **MongoDB** and **PostgreSQL** for dynamic data handling, authentication, and file uploads.
- **Debugged, tested, and optimized** application performance, ensuring cross-platform compatibility and reduced load times.
- Utilized **Git, GitLab, and GitHub** for version control, enabling **agile collaboration** and efficient team-based workflows.
- Collaborated on **live client projects** under the mentorship of senior developers, gaining **hands-on experience** in real-world software development lifecycles.

PROJECTS

LocalService (Full Stack Web Application)
Frontend: React, Redux Toolkit, Tailwind CSS, Toastify

- Developed a fully responsive and user-friendly UI for booking and managing local services.
- Implemented state management for users, services, reviews, and bookings with Redux Toolkit.
- Added real-time booking status updates and interactive toast notifications.

Backend: Node.js, Express.js, PostgreSQL, Multer, JWT, Bcrypt

- Designed and developed RESTful APIs with role-based access control (Admin, Customer, Provider).
- Implemented JWT-based authentication and password hashing for enhanced security.
- Integrated Multer for secure service image uploads and media handling.
- Built modular architecture using controllers, middlewares, and repositories for scalability.

CRM (Full Stack)
Frontend (React, Redux, Bootstrap, CSS, Toastify)

- Developed a responsive CRM frontend using React, Redux, and Bootstrap, implementing state management for dashboard, leads, deals, tickets, companies and activities with real-time updates and user-friendly Toastify notifications.

Backend: Node.js, Express, PostgreSQL, JWT, Multer

- Built a secure backend with JWT-based authentication, role-based access control, and PostgreSQL integration for managing CRM modules (Leads, Deals, Companies, Tickets).
- Implemented file upload using Multer and optimized database queries for performance.

EDUCATION

Upcode Software Labs   Sep 2024 – Sep 2025
MERN Stack Development Internship Program

University of Calicut   2019–22
Bachelor of Arts in Arabic Language and Literature
